

Index of Names for Zero 3 Bravo: Solo Across America in a Small Plane

Mariana Gosnell, Touchstone edition (trade paperback) 1994

compiled by OmnivoreInk.

Notes:

Annotated, with information from the book only. (e.g. Jimmy Doolittle is a rather famous aviator (!), in this book he is only mentioned as an air racer, flying the Gee Bee. Bob Hoover is ID-ed only as "the flying brain surgeon")

If only a first name is given, person is not included. If a name is "dropped" it is not included, unless it gives *some* kind of information about the person, however brief.

Numbers in italics are photographs. 244 = page 244. Page number = the page of the photo section after that number. Therefore 244-3 means, in the photo section after pg 244, the third page of photos will have Bryan Allen on it.
